JONAS IHREBORN

# Jonas Ihreborn AB

We believe furniture can only be justified if they have personality and are truly filling a need. With this in mind, we create pragmatic, timeless and longlasting products for a sustainable future.

Jonas Ihreborn is the third generation in a line of upholstery craftsmen and producers. Since we are a family business our values and personal engagement are most important.

All furniture is made in our own factory in Småland, the centre of the Swedish manufacturing area, close to our local sub-suppliers. Therefore, we are able to control the whole process and keep the workforce happy. This contributes to sustainable development with environmental awareness and fair conditions.

We design furniture aimed to create long term relationships. The collection builds on familiar themes, both traditional and modern, combined with a strong individual aesthetic for each piece.
