Lamp of the year 2019, Residence Magazine

"Broberg & Ridderstråle's lamp globe Kandinsky is a frozen moment, a brilliant meeting between hand-blown glass and geometric precision.

About Kandinsky - Broberg & Ridderstråle, 2019

"This pendant lamp is inspired by the abstract circle paintings by Wassily Kandinsky during his years at the renowned Bauhaus school in the 1920's. A sphere and a spear act as the main characters in the lamp composition, piercing each other in midair to create an object that evokes a sensation of weightlessness, fragility and precision.

The custom-made light source is shaped and fitted seamlessly as a part of the brass spear and emits a glowing, dimmable light from the center of the smoke-colored glass."
